

Monarch® Sierra Sport2™ 9460™ Portable Printer

Monarch®
Products and Services

Streamlined Labeling

Take the printer to the merchandise and keep your employees on the selling floor with customers.

When price changes are needed, the lightweight Monarch Sierra Sport2 Printer can go right to the product's location. Pricing and re-ticketing are done in a snap! Because the work can be done right on the retail floor, employees remain visible and accessible to customers, improving sales and customer satisfaction.

Increase productivity even further with the RF link option and never be tethered by cables!

Mobile Printing Versatile Power

The Monarch Sierra Sport2 printer can be carried with complete comfort by hand, waist or shoulder straps.

Versatile power options include rechargeable lithium ion battery which can print up to 6,000+ inches of supplies on a single charge, AC adapter for stationary applications and DC adapter for vehicle or other DC-powered applications.

The lithium ion battery reaches 80% charge in just one hour.

Unique Features for Increased Productivity

- **User Friendly** - the five button control panel and easy-to-read multi-line display allow you quick and easy access to the printer controls.
- **Durability** - features a protective boot and feet that helps decrease downtime due to damaged equipment.
- **Easy Loading** - with our unique loading design, the supply roll is in the "door" of the printer. No need to reach inside the printer to change the supply roll!

Applications for the Retail Supply Chain

You can use the Monarch Sierra Sport2 printer in just about every area of the retail supply chain.

Retail applications

include: In-store pricing, re-ticketing, markdowns, store transfers, returns marking, price verification, shelf labeling and service desk printing.

Distribution Center and Manufacturing

applications include: Bin labeling, receiving, asset management, inventory management, pick-pack-verify, WIP management and cross docking.

Innovative Wireless Solutions

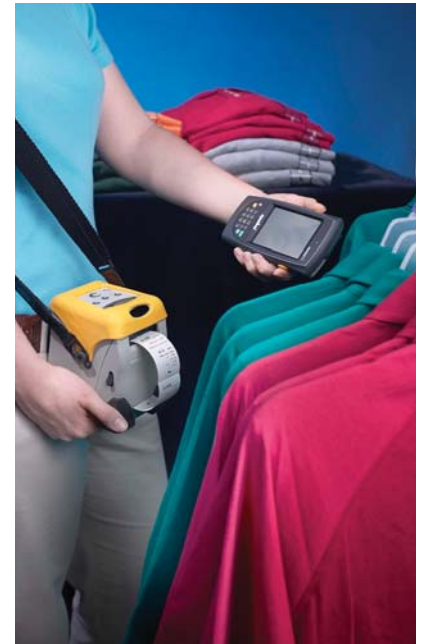

To extend the reach of the Monarch Sierra Sport2, we offer the latest in wireless printer connectivity, from Bluetooth to 802.11b/g wireless networking. Both options are fully integrated with the printer and can be configured directly from the printer keypad and display. The integrated display also shows network link status. Both options

are powered by the printer battery, and have power saving features to conserve battery life.

The 802.11 b/g radio option offers fast 54 Mbps transmission speeds and provides enterprise-class wireless network security, including support for IEEE 802.11i (WPA/WPA2) authentication and encryption methods.

With a wireless solution, you can improve productivity, lower costs and reduce downtime by eliminating cables from your operation.

Features and Specs at a Glance
